One Connect Contract Management Module empowers the customer to take control of their internal and outsourced services, irrespective of trade or service type. A key benefit of this Module is the management and coordination of efficiencies to provide cost effective solutions while measuring these against KPIs that then provide early notifications to both the customer and service provider. When used in conjunction with other Modules such as Facilities Management, Tender Management and Gift Register this creates a very powerful tool. A comprehensive reporting and auditing function supports this module.

Features

- ✓ User friendly process
- ✓ Fully customisable
