The One Connect Gift Register Module is designed to manage gifts received by an organisation or its employees. Each gift can be tied to specific contracts, contractors, employees, escalating gifts that exceed the organisational policy limit accordingly. This Module is particularly helpful in recording and reporting on FBT for taxation purposes. The dashboard has full reporting capability in terms of mapping all gifts across the organisation, disposal to Charities, or those gifts that are returned as they breach or sit outside of the organisational policy.

This innovative module when used in conjunction with the Tender and or Contract Modules provides the organisation with a very comprehensive history. Furthermore, this Module provides the organisation with a transparent tool in which to manage its corporate governance in relation to its Gift Policy. The Module has a full reporting and audit capability and can be mirrored against the organisations fraud and corruption framework in order that it protect its employees, brand and reputation from media, contractor or stakeholder scrutiny.

## Features
